1. The contractor shall remove and dispose of debris consisting of various sizes of wood, pilings, wreckage, wrecks, fiberglass boats, plastics, styrofoam, metals, rubber tires, metal and concrete found drifting in New York Harbor and from pier demolition / harbor cleanup projects. The material from the pier demolition / harbor cleanup projects may be accompanied by encrusted mud and earth as a result of the removal process. The debris to be removed will be stored on Government Barges NY 48 and NY 49 and possibly barges belonging to Government contractors working on government pier demolition / harbor cleanup projects. It is estimated that the contractor will be required to remove the wood and debris four (4) to ten (10) times per year, when ordered to do so by the U.S. Army Corps of Engineers. The frequency of removal may increase due to the quantity of wood and debris made available from pier demolition /harbor cleanup.
2. The Government Barges NY 48 and NY 49 hold approximately 250 short tons (ST) of debris each. The Government contractor's barges hold approximately 500 ST each. The contractor will be notified to remove debris from Government or Government contractor's barges via issuance of task orders. The Government barges NY 48 and NY 49 can be towed by Government vessel at the contractor's request within a seven (7) nautical mile radius of Caven Point Marine Terminal, Jersey City, NJ. The Government contractor's barges can be towed by their own vessels or by a Physical Support Branch personnel in New York Harbor and its tributaries. The Government and Government contractor' barges can be towed at contractor's expense by commercial tugboat to a location agreed by Physical Support Branch personnel in New York Harbor and its tributaries within a twenty-five (25) nautical mile radius from Caven Point Marine Terminal. The Government Barges NY 48 and NY 49 must stay on an inland route when being towed and cannot cross the line of demarcation to ocean route.
3. Contractor must arrange docking space at the facility the barges are towed to assure at least one (1) foot clearance at mean low water (MLW) under the barges at the dock. The approximate draft of the NY 48 and NY 49 is eight (8) feet but this must be verified before the barges are towed to the offloading facility. At no instance shall the barges be allowed to go aground. The contractor will be responsible for the barges while they are in his/her possession. The contractor, at his/her expense, will be required to repair all damages to or caused by the barges while in its possession.
4. The contractor shall dispose of a maximum of 50% of the debris at a landfill. A minimum of 50% of the debris must be disposed of by recycling. 100% of the debris may be recycled. Recycling includes environmentally acceptable reuse of material in present form, processing of material for reuse, resources recovery, etc. Some of the debris collected may require disposal in specific landfill sites due to the nature (characteristics/treatments) of the debris.
5. The contractor must assure compliance with appropriate Federal, State and / or Local regulations and obtain the appropriate authorization and permits at his/her expense.
6. Contractor is required to set up a containment boom around the work area while unloading debris from the barges so as to entrap any wood that falls into the water. The contractor must pick up all floating debris that falls into the water.

7. Contractor is required to unload one (1) Government storage barge if requested.
8. This removal contract will be during the period commencing 01 October 2004 thru 30 June 2005, with four (4) option years, 01 July 2005 thru 30 Jun 2006, 01 July 2006 thru 30 June 2007, 01 July 2007 thru 01 July 2008, and 01 July 2008 thru 30 June 2009, if exercised.

2. Final weighing of the barges shall be conducted by a certified weigh master in the vicinity of Caven Point Marine Terminal, Jersey City, N.J. or agreed upon location in New York Harbor. The contractor will be required to pay for the weighing of the barges. Contractor will be paid based on the weights furnished by the weigh master.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial

laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation) and computes a proposed rate).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the

request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
